

Q RANGE

Q12 - RUST OFF

Q12 removes the worst rust in minutes. No more sanding; just apply Q12 and wait for it to work!

Q12 must be applied with a brush or mutton cloth. **CARE MUST BE TAKEN TO PREVENT THE GEL COMING INTO CONTACT WITH THE SKIN. PREFERABLE TO WEAR GLOVES!**

Use Q12 in the garage, home, workshop or on the farm for any rusty implements and fittings.

Apply Q12 and wait for 30 mins - wash off with water. If the surface is to be painted - Q12 does not act as a primer and the surface must be primed before painting.

only available in 200ml bottles
